EASI (Electronic Access to Sales Information) Data File Information

The current EASI data is available as a .csv (comma separated values) formatted file for use in computer applications. This file format was chosen because it is commonly supported on most computer systems.

The EASI data file consists of data values separated by commas and terminated with a new line. Data values with embedded commas are enclosed in double quotes.

The first row in the file consists of column headings and the last row is the EASI data disclaimer.

The data file consists of the following data fields…

Column 1: Asset Description (short)

Column 2: Additional Asset Description (detailed)

Column 3: Asset Type. A general category of the asset

Column 4. List Price

Column 5. Asset County

Column 6. Asset State

Column 7. Sale Date (mm-dd-yyyy format)

Column 8. Hearing Date (mm-dd-yyyy format)

Column 9. Sale Location

Column 10. Judge Name

Column 11. Trustee Name

Column 12. Contact Name / Contact Information

Column 13. Contact Phone Number / Contact Information

Column 14. Contact Email Address / Contact Information (optional)

Column 15. Preview Date (optional) (mm-dd-yyyy format)

Column 16. Preview Time (optional) (HH:MM format)

Column 17. Preview Location (optional)

End of instructions.
